

A STRONGER DIGITAL STOREFRONT
FOR WHAT'S NEXT.

Website Redesign Proposal

A modern, high-performing e-commerce experience designed to grow your brand, engage more customers, and drive more sales.

01. OVERVIEW

A Better Website for What's Next

The goal of this project is to redesign and optimize your website to create a more engaging, effective, and conversion-focused online experience. This proposal outlines the opportunity, objectives, and five tailored options to achieve your goals.

STRONGER PERFORMANCE

Faster, smoother,
more reliable.

BETTER EXPERIENCE

A more intuitive
and enjoyable
shopping journey.

MORE SALES OPPORTUNITY

Turn more visitors
into customers.

02. GOALS

Clear Goals. Real Impact.

This project is focused on improving the key areas that influence customer experience and drive online sales.

01

Modernize the Design

Create a clean, modern, and on-brand experience.

02

Improve Usability

Make it easier for customers to find and buy products.

03

Increase Performance

Faster load times and a smoother experience.

04

Build a Stronger Foundation

Set the site up for long-term growth.

05

Drive More Conversions

Remove friction and help more visitors become customers.

04. THE SOLUTION

Two Paths Forward. Same Goal.

Choose the right level of support for where you are now and where you want to go. Both options are designed to create a better website and a stronger business.

01

Frontend Redesign + Optimization

A complete visual and user experience upgrade focused on what your customers see.

02

Full Website + Backend Rebuild & Optimization

A complete rebuild with a modern frontend and backend, designed for easier management and long-term growth.

05. OPTION 1

Frontend Redesign + Optimization

A complete redesign of everything the customer sees, with a focus on usability, speed, and conversions.

- ✓ Full visual redesign
- ✓ Mobile-first responsive design
- ✓ Homepage redesign
- ✓ Product page improvements
- ✓ Collection/category page improvements
- ✓ Cleaner navigation
- ✓ Stronger calls to action
- ✓ Better brand consistency
- ✓ Image and media optimization
- ✓ Faster page loading
- ✓ Improved cart and checkout flow
- ✓ General UI/UX cleanup

06. OPTION 2

Full Website + Backend Rebuild & Optimization

Includes everything in Option 1, plus a complete rebuild and modernization of the WordPress backend.

- ✓ Everything in Option 1
- ✓ Full WordPress/wp-admin rebuild
- ✓ Cleaner, more organized admin area
- ✓ Easier product management
- ✓ Simplified editing screens
- ✓ Better content organization
- ✓ Improved media management
- ✓ Easier site-wide updates
- ✓ Better backend performance
- ✓ Clean long-term structure for growth

07. A BETTER WAY TO MANAGE

A Modern Business Control Center

The goal is to turn wp-admin into a clean, easy-to-use command center so your team can quickly manage the business without dealing with unnecessary clutter.

08. POTENTIAL IMPACT

A Higher Conversion Can Make a Big Difference

Here’s an example based on 10,000 monthly visitors.
These are scenario estimates, not guaranteed results.

Scenario	Conversion Rate	Monthly Orders	Additional Orders
Current	1.5%	150	—
Conservative	2.0%	200	+50
Strong Improvement	2.5%	250	+100
Higher Upside	3.0%	300	+150

If the average order value is \$60, a 1.0% increase in conversion could represent approximately \$6,000 in additional monthly revenue.
